

Differentiate your Mobile Offering – Simple, Fast & Secure

Create and deliver differentiated mobility services and gain competitive advantage. Grow revenue and profitability by mobilizing your current service/product offering for your customers. FeedHenry is committed to helping partners build business success in mobile channels. Our platform helps you deliver mobile apps for your clients fast and cost-effectively.

Whether you are an ISV, Service Provider, Reseller, OEM, or System Integrator we have the right partnering program for you. We also offer a Certification program, giving recognition to app developers that achieve a level of proficiency in developing business apps on the FeedHenry cloud platform.

Why become a Partner?

- **Control:** Create apps and sell these to your customers without your customers having to have a FeedHenry account. Your customers don't even have to know that you developed the apps on the FeedHenry platform.
- **Increase Revenue and Margins:** Create and manage individual domains for each of your client and charge at a price you decide.
- **Preferred Pricing & Incentives:** Get preferred pricing and earn referral fees. The accredited partner program offers you additional incentives on pricing, referral fees, branding and support.
- **Access new markets:** Develop more sophisticated business apps for your clients. Integrate securely with business systems. Leverage FeedHenry's server-side technology.
- **Flexibility:** Start with a free trial and upgrade at any stage. No hidden costs, no additional hardware or software needed.
- **Scalability:** Server-side functionality in the cloud offers all the advantages of scalability and support for evolving needs.
- **Marketing:** Avail of co-marketing opportunities with FeedHenry and/or with other partners

About FeedHenry

FeedHenry's cloud platform supports the development, deployment, integration and management of secure mobile apps for business and enterprise markets. Our platform powers mobile apps from the cloud, making the solution simple, secure and scalable. We work with organizations and partners globally to provide simple and affordable mobile app solutions.

Build business success in new channels, boost productivity and enhance your customer experience.
